

## pH And Other Stuff

3 - 4 - 2 means: 3 pounds of nitrogen  
4 pounds of phosphorous  
2 pounds of potassium  
per 100 pounds of product.

A 4 pound bag of 12-0-0 bloodmeal has

$\frac{12 \times 4}{100} = .48$  pounds of nitrogen in it

### pH

5.5 - 7.0 = most veggies, fruit  
landscape plants

4.8 - 5.3 = potatoes, rhubarb

4.5 - 5.2 = blueberry, cranberry, rhody  
Azalea, blue hydrangea

4.0 - 4.5 = sphagnum peat moss  
1-2 cuft/plant every 1-2 yrs
